

**North Dublin.**  
Mr. Rhoades with the help of Mr. Ryan reshingled Mr. Frank Keltner's house Thursday and Friday. Mr. Keltner being desirous of having the shingles laid in the dark of the moon so the shingles will not warp.

It has occurred to the mind of a certain woman what is wrong with one of her screen doors at night it fits in its place while the flies are sleeping and when the sun shines on it it warps out and the flies crawl in all around it and she proposes to have it hung in the right time of the moon another year.

Mr. Rhoades finished Mr. Hackford's new stable Monday in the forenoon and finished one for himself in the afternoon. He said he and Mr. Hackford have come to the same conclusion to be kind to their horses and not let them stand out in the rain and cold winds while they milk any longer. There is a suspicion that it is the "wives" husband that they are thinking about as they like to milk and feed their horses like to milk they have not said it.

The box supper at our school house on Tuesday night was a grand success, leaving everything of the kind, we have heard of, in the soup. Think of taking in \$18.50 in one night at a country school house! But that is what we did. The proceeds go to help get an organ, which is needed at Blue.

#### A Physician Testified.

"I have taken Kodol Dyspepsia Cure and have never used anything in my life that did me the good that did," says County Physician Geo. W. Scroggins of Hay County, Ga. "Being a physician I have prescribed it and found it to be the best results." If the food you eat remains undigested in your stomach it decays there and poisons the system. You can prevent this by digesting but that means starvation. Kodol Dyspepsia Cure digests what you eat. You need suffer from neither dyspepsia nor starvation. The worst case quickly cures. On Halloween night the ghosts of "Punk and the Fairies" serenaded our town with the most unearthly music and performances that ever was seen or heard on earth. The spirits took no objection to any part of our town except the blacksmith shop which they decided they would for once put in order but at sight of shadows on the window panes which fairies do not like they suddenly vanished and we do not expect an other visit this year.

#### The Reading Room.

We're called at the News Office and find a fine supply of reading matter on all subjects. Jasper ought to be thankful to Mr. Monro for opening a free reading room and show their appreciation by availing themselves of the opportunity of reading all sides of the questions of the day.

We hope the young men who spend so much time on the streets will now have a more pleasant and profitable way of improving the precious moments. There is no excuse now of ignorance because you can't afford to take a paper. (I know a family of six who do not take a paper of any kind.)

The papers on our "Dumb Friends" are especially interesting. We often see our horses hitched all day to the rack, and a cold wind blowing from the north and they have not even a blanket on. If I was a horse, (I sometimes wish I was one long enough to do some kicking) I would rather be one in some large city where there is a humane society and I would not be overloaded or under fed or hitched without a blanket or driven with sore shoulders or lame feet. Don't put all your time reading one subject.

Geo. Miles has some interesting reports on the Anti-Canteen Law.

The Ram's Horn has a very interesting serial on a druggist who sells whiskey as a beverage.

The Carthage Democrat has a very interesting article on Gambling in Joplin as seen by Prosecuting Attorney Mooneyham and his decision is to stop it at once (The gambling not the Democrat) and the White Ribboners all rose to their feet with their handkerchiefs ready for the Chautaugus Salute. (We don't use tin horns when we let the Carthage Press come out and said Mooneyham has gone fishing.

Dear friends go and read for yourselves everything on all subjects.

"Swing."
